Full-stack engineer who builds and runs production web and iOS apps, from React/TypeScript front ends to serverless back ends and CI/CD. Founder of **Peninsula Digital Solutions** and builder of **SwingDoctorAI**, an iPhone tennis coach with on-device computer vision. Bilingual in English and Spanish.

Experience

Peninsula Digital Solutions LLC | Founder & Lead Developer · Redwood City, CA — Apr 2026 – Present

Formalized my freelance web practice (Dec 2023 – Mar 2026) as an LLC; freelance clients moved to the business.

- Build, host and maintain sites for 7 small businesses, including B&H Machining, Baywide Moving and Bear's Barber.
- Ship static **Next.js** and **React** sites on Firebase Hosting with **GitHub Actions** CI/CD, scoring PageSpeed mobile **90–97**.
- Built a serverless lead pipeline (**Firestore** rules, **Cloud Functions**, **Resend** with idempotency keys) with **Playwright** tests.
- Building a client portal on Next.js, Supabase, Stripe and Vercel; run local SEO, Google Business Profiles and Google Ads (MCC).

Stanford University Libraries | Lab Assistant, Born-Digital & Media Preservation · Redwood City, CA — Starting Nov 2026

- Recover data from legacy media: create forensic disk images, analyze files with preservation tools, run processing scripts, and prepare collections for ingest into the Stanford Digital Repository.

Athena Coding | Coding Instructor & Mentor (part-time) · Bay Area, CA — Current

- Teach and mentor elementary and middle school students in after-school coding lessons, one to two days a week.

Study.com | Software Engineering Intern (Full Stack) · Mountain View, CA — May 2025 – Aug 2025

- Delivered **30+ story points** on a cross-functional Agile team: reusable **React/TypeScript** components in **Storybook**, a PDF download feature, and Everflow conversion tracking.
- Restored closed captioning after breaking third-party API changes and fixed course-count data at the source; wrote unit and Selenium tests and shipped with Jenkins and Tomcat.

FreshFrosh LLC | Full-Stack Developer Intern · Santa Clara, CA — Jul 2024 – Nov 2024

- Built the web interface and **Node.js** APIs for a platform connecting students with peers and mentors, plus an AI resume parser and chatbot, on **Firebase** real-time data, storage and auth.

TipNow Resilience Inc. | NLP Engineer Intern · Fremont, CA — Mar 2024 – Aug 2024

- Led a small intern team building **Python** NLP models that assign threat levels to anonymous campus-security tips, reaching **94% accuracy**; designed the ingestion pipeline and oversaw labeling and evaluation.

Raja Brands LLC | Web Developer (Contract) · San Francisco Bay Area — Dec 2023 – Aug 2024

- Designed and built the responsive launch site for a chai latte brand in **React** and **Firebase**, with an email sign-up for marketing campaigns, a **Google Maps API** store locator, SEO and analytics.

Projects

SwingDoctorAI | iOS tennis coach with on-device computer vision · swingdoctorai.com — 2026 · In beta

- SwiftUI app that tracks player, ball and racket with a **Core ML** RF-DETR model and speaks coaching tips in real time.

SquirtzCraft | Self-hosted game server and admin dashboard · squirtzcraft.com — 2026

- **FastAPI** dashboard on a Raspberry Pi 5 for server control, live console, versions and **systemd** backups, served via Cloudflare Tunnel.

Skills

Languages	TypeScript, JavaScript, Python, Swift, Java, SQL, C/C++
Front end	React, Next.js, SwiftUI, React Native, Tailwind CSS, Storybook
Back end	Node.js, FastAPI, Flask, Firebase, Supabase/Postgres, Stripe
